4-12-78

Dear mr. Weisburg,

You recently indicated interest to my mother (Marie Shipley) in having someone from Hood intern with you to help with the CIA documents. This idea really interests me. I have another year left in a Poli Sci degree from Hood.

Right now I am in Indiana where my husband is finishing up at Purdue..

We will return to Frederick in Jan, 79, so I can set my degree.

I have written Dr. Lewis and Dr. Mcknight at Hood expressing a desire to work out an internship for the Spring '79. semester.

I would appreciate the opportunity to work with you. Please let me know if there is a possibility of working this out.

Thank you—
